The Energy Savings Trust

- is a not for profit limited company offering independent energy advice on <https://energysavingtrust.org.uk/>

Independent Energy Consultants

Before spending a lot of money it may be wise to get an on-site survey from an independent energy consultant. He/she will usually have a professional background eg architecture + additional relevant qualifications, and will be able to advise what energy efficiency measures will best suit your home. He/she will also be able to recommend local installers
